POLICY ON HANDLING OF VALID TILL DATE (VTD) ORDERS

I. OBJECTIVE:

TO establish a uniform framework for handling Valid Till Date (VTD) orders offered to clients, ensuring transparency, minimizing risks arising from corporate actions, and complying with regulatory requirements.

II. BACKGROUND:

The Securities and Exchange Board of India (SEBI) observed that certain members offered Good Till Cancelled (GTC), Good Till Triggered (GTT), or similar types of orders that allowed clients to place buying and selling orders specifying both the price and the time frame for which the order would remain valid on the Stock Exchange platform. However, such orders could lead to absurd trades during corporate actions (e.g., stock splits, bonus issues, or rights issues), exposing investors to potential losses. Since the handling of such orders varied among members, SEBI, in consultation with the Broker's Industry Standards Forum, mandated members offering these services to formulate a uniform policy for their management.

This policy ensures consistent handling of such orders, reduces investor risks, and adheres to regulatory requirements.

III. PURPOSE:

This policy establishes the procedures for managing Valid Till Date (VTD) orders, particularly during corporate actions such as stock splits, bonus issues, and other events affecting financial instruments.
